

TECHNICAL DATA SHEET

Tocobest™ D-α-Tocopherol Oil

1000IU m

Chemical Properties

CAS No.: 59-02-9

EINECS No.: 200-412-2

Chemical Formula: C₂₉H₅₀O₂

Molecular Weight: 430.71

Description

D-alpha-tocopherol, the most active form of VE, is originated from soybean oil. It is insoluble in water, but soluble in ethanol, gasoline, ethyl and vegetable oil, heat-stable (almost no decomposition if heated to 200°C), nearly odorless. It darkens slowly in air and on exposure to light.

Solubility

It is insoluble in water, but soluble in ethanol, gasoline, ethyl and vegetable oil.

Specification

Item	Specification	Test Method
Appearance	Light yellow to brownish red liquid.	Organoleptic
Odor	Mild characteristic	Organoleptic
Specific Rotation	Min +24°	USP<781>
Acid Value(mgKOH/g)	Max 2	USP
D-alpha-Tocopherol	Min 67.11% Min 1000IU	USP
D-alpha in Total Tocopherols	Min 95%	USP
Heavy Metals	Max 10ppm	USP<231>
As	Max 2ppm	ICP-MS
Hg	Max 1ppm	ICP-MS
Sulphated Ash	Max 0.1%	EP2.4.14
Total Plate Count	Max 1000cfu/g	USP<61>
Yeasts & Molds	Max 100cfu/g	USP<61>
Coliforms	Max 40 MPN/100g	USP<61>
<i>Salmonella</i>	Negative	USP<61>
<i>Staphylococcus Aureus</i>	Negative	USP<61>

Ingredients

NLT 67.1% D-alpha-tocopherol, with NMT 32.9% refined soybean oil as carrier. (m is short for soybean oil)

Labeling

In the United States and the European Union: Tocobest™ Vitamin E Oil
D-alpha-Tocopherol 1000IU

Applications

Use for fortification of margarine, oil and fat, nutrition products and baby food, also used in soft capsules and as an antioxidant in oil and fat.

The properties of VE like Antioxidant activity, Bio-membrane stabilizing activity, Promotion of blood circulation, maintaining hormone balance and Anti-thrombosis activity give the main functions of VE. D-alpha-tocopherol products are used for fortification of margarine, oil, fat, nutrition products and infant food, or in supplements and as an antioxidant in oil and fat, also used in cosmetic products.

Safety

This product is safe for the intended use. Avoid ingestion, inhalation of dust or direct contact by applying suitable protective measures and personal hygiene. See Material Safety Data Sheet for full safety information.

Handling recommendations

Keep container in a cool, well-ventilated area. Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not ingest. Do not breathe gas/fumes/vapor/spray. If ingested, seek medical advice immediately and show the container or the label. Keep away from incompatibles such as oxidizing agents.

Packaging, Storage & Shelf Life

Package	20kg/drum, 50kg/drum, 190kg/drum; or according to customers' requirements.
Storage	It should be keep container tightly closed and away from strong light.
Shelf Life	The product may be stored for 24 months from the date of manufacture in the unopened original container and at room temperature.
